

ENVIRONMENTAL LABELING OF PACKAGING MATERIALS

Lex no. 116 of 3 September 2020, which implements Directive 2018/851/EU on waste, and Directive 2018/852/EU on packaging and packaging waste, provides that producers, for the purposes of identifying and classifying the packaging, must indicate on all packaging (primary, secondary and tertiary) the nature of the packaging materials used, on the basis of Commission Decision 97/129/EC.

Lex no. 360 of 28 September 2022 was published on 21 of Novembre 2022 and adopts the Guidelines on environmental labelling for the correct fulfilment of packaging labelling obligations by responsible parties.

In compliance with the principles of the free movement of goods, the Guidelines underline the possibility of adopting digital channels that can completely replace or integrate the mandatory information reported directly on the packaging.

In the following table you can view the information and codes useful for the labeling of our packaging.

For exemplification, the packaging is grouped by type, identified by an image, a general description, the numbering and abbreviations of materials according to Decision 97/129/EC).

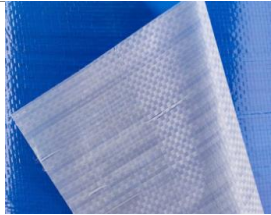

For any information or support you needs, please refer to your sales contact.

NAME OF PACKAGING	IMAGE (EXAMPLE)	DESCRIPTION	MATERIAL <i>Abbreviaton and numbering</i>	COLLECTION INSTRUCTION
PALLET		Wooden pallet	FOR 50	Check your local regulations
